

# HAULTAIN AND AUTONOMY

## AT FORT SASKATCHEWAN

### THE TERRITORIAL PREMIER TAKES THE STUMP FOR SECOND

#### Fails to Make a Case for His Candidate and Supporter

Autonomy as good as any other cry to defeat railway competition and protect C. P. R. monopoly.

No promise of autonomy or suggestion of terms by the opposition.

Electors asked to vote for the opposition who did not offer terms, because the Government proposes to discuss terms.

Haultain admits that the terms are the issue; but condemns Oliver for demanding terms before accepting autonomy.

Condemns Oliver for not talking enough on autonomy, and says a man who does not talk is no good.

Calls the increase of Territorial subsidy a bribe, and asks the people to condemn the Government for giving it.

Acknowledged that he had refused \$250,000 without interest for roads and bridges; and gave no reason for doing so.

Claimed that autonomy would increase Territorial revenues by \$2,000,000 a year by securing 5 per cent on 39,000,000 acres of land at \$1 an acre given by the Conservative Government to railways in Manitoba and the Territories.

Had no evidence to offer that this grant could be secured from either party, and least of all from the party which had given away the land.

Admitted that without this concession autonomy would mean financial loss to the Territories.

Did not attempt to explain how Manitoba with autonomy for over 30 years, mostly under Conservative rule, had no control of her own lands, and had no such revenue as he claimed for the Territories.

Admitted that Manitoba was heavily in debt and that the Provincial Government was partly supported by direct taxation.

The meeting was crowded. Mr. Moran was chairman. Mr. Haultain spoke for nearly two hours, Mr. Oliver for over an hour and Mr. Haultain closed.

Mr. Oliver moved a vote of thanks to the chairman, Mr. Haultain seconded. No demonstration was made for Secord, Haultain or autonomy without terms.

## WHAT FRANK OLIVER HAS DONE FOR THE SETTLER

The following is a straight answer given by a pioneer to the question so often asked by Mr. Oliver's opponents, "What has Frank Oliver done for the settler?"

Years ago Mr. Oliver established "The Bulletin," and from that time until now his paper has been a powerful and true exponent of the settler's rights. First, week by week, then twice a week, then three times a week, and now daily. Mr. Oliver puts forth the claims of the settlers. The true answer to the question, "What has Frank Oliver done for the settler?" is to read the Bulletin from its inception, and it will be found that its columns contain the matter which finally stopped "huge land grants being given to railway companies, which contained editorial that put backbone into us pioneers, who had become discouraged over the treatment we had received from the old government, and which also made the present Government wake up to the fact that the interests of the farmer should be looked after first, and that the interests of the railway companies and manufacturers were not the whole thing to be considered by any government.

Besides the above, Mr. Oliver has to his credit the construction of the railway and traffic bridge across the North Saskatchewan, the building of the penitentiary at Edmonton, the construction of a telephone line to Stony Plain, and a telegraph line to the Athabasca Landing, the opening up of a trail to Pechy River, the inauguration of a Government service to the north country, the building of an emigration Hall at Strathcona, and the opening up of one in Edmonton, and the obtaining for the halfbreed his land script, etc., etc.

Mr. Oliver's real work on behalf

of the settler appears most plainly in the changes made in the government regulations, some of which will give, and are as follows:

There are now no Government lands for sale, to the speculator, but all are held for homesteading. A squatter can now obtain a free timber permit, the same as a homesteader can.

Dry timber for fuel and fencing is now free to the settler. Dry timber for building purposes can now be obtained for 25 cents per thousand, instead of \$1.50 per thousand, B. M. as formerly.

All government coal lands are now sold with the proviso that coal shall be sold to the settler at the mine for not more than \$1.75 per ton.

Twenty head of stock may be substituted for breaking where a quarter section is more fitted for grazing, or is too much timbered, and patent obtained.

A son can now live with his parents, and the time counts as residential duties on his homestead.

A squatter's time for patent counts from the day he squats, and not from the day he makes entry.

If a homesteader is burnt out he is entitled to another free timber permit to give him a start again.

Butter, cheese and eggs are now bought and put in cold storage by the Government and sold, the profit made being given to the settler.

None but the pioneer can appreciate the work of Mr. Oliver as it should be appreciated.

The above facts speak for themselves, and surely show how well Mr. Oliver has looked after the poor man's interests, first, last and during all the time that he has been their representative.

Yours truly,  
PIONEER.

## CUSHING BROS. CO.

### A FLOURISHING BUSINESS

Many alterations and improvements made during the past year

One of Edmonton's flourishing manufacturing establishments is Cushing's Mills, situated on Namayo avenue. The capacity of the mills has been increased threefold during the last couple of years, and a large business is being done.

The offices of the company are conveniently situated in a neat and commodious building fronting on Namayo avenue. Adjoining this are a sash and door warehouse, a glazing room and a showroom for special doors, windows, etc. The capacity of the glazing room has recently been increased. In the showroom are exhibited ornamental doors and windows, of which the company are making a specialty.

The factory proper is back from Namayo avenue although opening on to it. It is 85 feet by 75 feet. A new addition has recently been erected to the mill, 75 feet by 33 feet. This is a two storey building, the lower part being used for storage purposes and the upper part providing increased room for bench work. A new turning room has recently been arranged, in which two skilled workmen are kept constantly employed. The company are going extensively into the manufacture of hardwood finish, oak and ash, for the better class of houses, etc. and are now making arrangements for a greater output of pine finish. The latest and best machines have been installed—in short, the mill has all the requisites of a first-class establishment. A great deal of special work is turned out in the line of office fixtures, and church and bank fittings. An elaborate, and at the same time, concise system has been installed for the removal of all shavings and other light refuse. This is carried by air pressure to a room adjoining the engine room. Shavings alone are used for fuel. The engine has a capacity of fifty horse power, but so rapid is the business of the factory growing that increased power will have to be installed in the very near future.

The factory yards proper cover twenty-five lots, and increased yard room has recently been provided for north of Third street east. A warehouse, two storeys, 35 by 50 feet, has been erected on the new yards north of Third street.

The headquarters of the Cushing Bros. Company is at Calgary, although Edmonton is the headquarters for Northern Alberta. It is the centre of the company's business at Strathcona and Fort Saskatchewan. Extensive enlargements have been made at both these branch establishments during the past summer. Although there has not been the same amount of building done

this year, as last, owing to the class of buildings, the company's business this year has exceeded that of last year, the banner year. Everything possible is being done to make the Edmonton establishment a large wholesale centre for Northern Alberta. Five delivery waggons are kept steadily employed either delivering manufactured goods or unloading at the station.

A striking characteristic of the mill is the extreme neatness to be seen on every hand. To economise time a telephone has been installed between the offices and the different sections of the mill and yards. The factory is lighted by the company's own electric light plant.

The headquarters of the Company's works at Calgary have recently been very greatly enlarged by the expenditure of about \$20,000. An up-to-date door and window plant has been installed, and the capacity of the mill doubled. The company now claim to have the largest establishment of its kind between Toronto and the coast. About one hundred men are kept in regular employment at the Calgary mill.

The payroll at Edmonton comprises about fifty hands all the year around, and with a corresponding increase in the company's business as they have had in the last two years, will necessitate the employment of a much larger force of men in the near future.

## ENTIRE HARVEST BURNED

W. Beaupry, who lives five miles from Morinville had a very serious fire on Thursday evening last when his six stacks of grain, his entire season's harvest, were completely burned. He had just commenced threshing, not more than a half dozen bushels of grain having gone through the mill when fire was noticed on the top of one of the stacks. In the excitement following, the fire got a chance to spread and soon the whole six stacks were in flames. The threshing machine outfit was barely saved from the fire. The loss is a very heavy one to Mr. Beaupry, resulting as it did in the total destruction of his entire season's crop.

Sir John A. on Government  
Ownership.

Speaking at Kingston in the campaign in 1872, Sir John Macdonald said:

"We propose to build this transcontinental railway by means of a company. Why? Because, as you know, we have learnt by what we have gone through on the Intercolonial that railways can be constructed and operated more cheaply, more efficiently, more advantageously in every way, by a company than by a government. If our friends the G-its had had the Intercolonial in hand they would have experienced the same trouble we have. They would have discovered that while it is easy when you are out of office to talk of running things as you would run a counting-house, it is difficult when you are actually the minister."

## GENERAL LAKE

### ARRIVES IN OTTAWA

To take the Position of Chief of Staff of the Military Council. Lord Aylmer's position

Bulletin Special Dispatch.  
Ottawa, October 25.—General Lake, who is to be chief of staff of the Military Council arrived with his family in the city this evening. They reached Montreal by the Allan line steamer Ionian. As has already been stated, Sir Frederick Borden asked the War Office for General Lake and the request was granted. The General will start at once to get things under way. His salary will be \$5,000. Lord Aylmer will be appointed Inspector-General with a salary of \$6,000.

### EPISCOPAL ORDINATION

Easton, Mass., October 24.—Leading officials of the Episcopal general convention participated in the consecration of Rev. Edward Osborne, of this city, for many years superior of the American branch of the Society of Mission Priests of St. John the Evangelist, as bishop coadjutor of the diocese of Springfield, Ill., here today. The preacher was Bishop Coadjutor Williams of Nebraska, who dwelt at length on the office and duties of a bishop. Incidentally he referred to the United States as a "sent ridden country, and to Boston as "Of fads and numerous cults." The Episcopal church, he said, had the apostolic ministry and its sacraments were the ones which Christ instituted. The Church could not abandon its principles if it was to be a centre of unity among dissenting denominations.

### CARNEGIE MAY SPEAK

Bulletin Special Dispatch.  
Ottawa, October 25.—The Canadian Club has received a letter from Hon John Morley, stating that he will be in Ottawa on Friday, but regretted that he could not accept the invitation of the club to deliver an address. He speaks in Toronto on Saturday. The club is endeavoring to get Andrew Carnegie to speak before it.

### COMING WEST

Bulletin Special Dispatch.  
Ottawa, October 25.—The international railway commissioners leave on Friday, 28th inst., for Winnipeg, and will remain in the West until November 3.

## Vote for Oliver and the Immediate Construction of the G. T. P.

The opposition in convention or in the House have never yet repudiated their policy of granting lands and cash bonuses to Private Railway Corporations. Both the C. P. R. and the Norwood Addition to Edmonton are exempt from taxation.

The G. T. P. have deposited \$5,000,000 as a guarantee of good faith that they will carry out their contract.

The G. T. P. have already spent \$1,000,000 in surveys and will begin construction work in the spring and it entirely depends on your vote whether they do so or not.

The Intercolonial Railway has running rights over the G. T. P. to Winnipeg and the Coast and the Railway Commission controls the rates.

Hon. W. S. Fielding, Minister of Finance states that \$13,000,000 will be the cost of the G. T. P. to the tax payers of Canada. Never to date has he made a financial statement to the public that was not true and correct.

Collingwood Schrieber, Deputy Minister of Railways and Canals, appointed by the Conservative Government states the same and in fact figured the cost for him.

One year's surplus pays for the road.

## ADVANCING AND ENTRENCHING

Kuropatkin's Forces are Conducting an Advance and Entrenching as They Proceed. Rival Armies Almost Face to Face

### ARMIES FACE TO FACE

Mukden, October 25, (via Pekin).—Russian forces on the left crossed the Shakhe river on October 21, and are now pushing forward toward the Japanese positions, entrenching as they advanced. At the same time the Russian batteries are bombarding the Japanese, who can be seen engaged in the making of trenches. This plan of the Russians to entrench as they advance, was adopted because it was found in the last big battle it was impossible to advance without some protection in the face of the Japanese fire. Russian and Jap. armies are now separated by less than four miles, and the whole field of operations of both armies can be plainly seen. The question of fuel is becoming a serious one, and the greater part of the Chinese corn has already been used for fuel and fodder.

### SEEKING EXCUSES

Paris, October 25.—It is explained that the Russian authorities recently were informed that the Japanese spy

service was organized particularly at Stockholm for watching from merchantmen and fishboats the passing of the Russian warships. The Russian officers fully expected such attacks and therefore were constantly looking out for floating mines and other destructive agencies. It is also declared that the Japanese were detected prowling near the Russian hospital ship. The Russian naval authorities here say that the coaling of the second Pacific squadron will occur outside the ports touched at so as to avoid questions involving neutrality.

### LITTLE NEWS FROM THE FRONT

St. Petersburg, October 24.—There is no news of immediate importance from the Far East to-night. The indications are that both sides are entrenching, though it is believed that Kuropatkin will be ready for a forward dash in a month, unless heavy Japanese reinforcements compel him to remain on the defensive. There are reports that Japanese reinforcements are arriving.

### POINTERS

IN REGARD TO THE

## NOR'-WEST FARMER

# A GRAVE DANGER

## THREATENS INTERNATIONAL PEACE

Feeling Against Russia at War Heat in Great Britain. St. Petersburg is Anxious and Conciliatory. Stormy Scenes in Old London.

### INTERNATIONAL PEACE THREATENED.

Bulletin Special Dispatch.

St. Petersburg, October 24.—At the foreign office the sinking of the British fishing vessels was deplored. The authorities manifested the greatest anxiety and expressed the hope that the unfortunate affair will be adjusted speedily and amicably while they believed that some explanation which will throw a new light on the affair will be forthcoming as soon as Admiral Rojestvensky can communicate with St. Petersburg. The authorities are unable to believe that the ships fired upon the fishing steamer without warning.

It was decided during the day that they prepare a semi-official note expressing the regret of the Russian Government and its willingness to make full reparation as soon as the responsibility is fixed.

While Ambassador Hardings did not receive any instructions, during the day he called upon foreign minister Lamsdorff this afternoon informally and impressed upon him the extreme gravity of the affair. He expressed horror and regret at the occurrence.

### A VERY GRAVE SITUATION.

London, October 24.—An official statement was issued by the foreign office this evening as follows: The foreign office has been communicated with by a representative of the fishing industry at Hull and Grimsby and has obtained a full statement of the facts in connection with the attack by the Russian second Pacific squadron upon part of the Hull trawling fleet. Urgent representations have been addressed to the Russian Government based upon this information and it has been explained that the situation is one which in the opinion of His Majesty's government does not admit of delay.

The Carrier ship "Swift" arrived at London this evening and reported that all the missing trawlers are safe. The captain of the "Swift" was on the bridge of his vessel at the time the Russians opened fire. He says four vessels did the shooting. They were only 150 yards distant from the "Swift" at the time.

### HOSTILE DEMONSTRATION.

London, October 24.—There was a hostile demonstration at Victoria station to-night on the arrival of Count Benckendorff, the Russian Ambassador to Great Britain. A crowd gathered and hooted him and attempted to break the windows of his carriage.

### EXCITEMENT IN NAVAL CIRCLES.

St. John's, Newfoundland, October 25.—The British cruiser Charybdis received orders to-night to be in readiness to proceed to England at a moment's notice. The training ship Calypso has been ordered to arrange for the mobilisation of 500 men of the Newfoundland naval reserves. There is much excitement in naval circles.

### AT THE RUSSIAN WAR OFFICE.

St. Petersburg, October 24.—Unquestionable nervousness exists in view of the sentiment in Government circles here. The feeling prevails that an amicable adjustment will be reached. This evening the censor passed all the telegrams relating to the subject, which consequently became the all absorbing topic in every public resort. The war in the far east was seemingly temporarily forgotten. Notwithstanding the latent sentiment of hostility against Great Britain, which smoulders in almost every Russian breast, the reports of the blunder of the Baltic fleet has aroused only expressions of sincere regret coupled with the hopes that when Rojestvensky's report arrives it will place a different complexion on the incident.

### BON ACCORD MEETING

A meeting in the interests of Mr. Oliver was held at Bon Accord last evening. The school house was packed, standing room being at a premium. A great many ladies were present. Speeches were made by C. W. Cross and J. McGeorge, after which a unanimous vote of confidence was passed in Mr. Oliver. The meeting closed by singing God Save the King and three cheers and a tiger for Mr. Oliver.

### SALE AND FEED STABLE

J. B. Lubbock's new sale and feed stable on Elizabeth street is almost completed. It is 150 feet by 34 feet, and has over eighty stalls, several of them being box stalls. It has a complete cement flooring throughout. The stable is electric lighted, and has waterworks attachments. It has been very conveniently laid out with all the latest arrangements. The stable is conveniently situated facing the market on the north side. It will be opened in a few days.

**SUPPOSED MURDER**

Continued from page 6.

gent Anderson and special constable MacDonald went over to the reserve and spent a day around the scene of the camp and discovered enough evidence to warrant the arrest of King and for the past three days the detachment to a man have been on the trail and have all the experienced guides at the lake engaged scouring the woods, endeavoring to track the other man as King claims he started out with a small pack to walk to Sturgeon Lake. Constable Nichol was sent to Sturgeon Lake and Sergeant Anderson and Constable Low are thoroughly examining the vicinity of the camp with the aid of the Indians on the reserve.

Evidence of a sensational and circumstantial character is expected to be forthcoming at the trial, which will take place at Edmonton or Fort Saskatchewan.

If the detachment here gets a case they are entitled to anything that goes with success in their business, as they are very short handed, and are working night and day and are leaving no stone unturned.

The prisoner King is an undersized man, about forty-five years of age, with dark hair and scraggy beard, sprinkled with gray. He did not have much to say when he was out and around, and has had less to say since his arrest. He is perfectly composed, and seems to be indifferent to anything that might turn up. His whole bearing is characteristic of a prospector or trapper, which he evidently is. He speaks with a pronounced Yankee accent, claims to hail from Montana, and chews tobacco constantly.

**C. N. R. Construction**

Winnipeg, October 24th.—Work on the construction of the Canadian Northern main line is progressing very satisfactorily, and the laying of the steel on the completed grade is going ahead at the rate of about three miles per day. The rails are down now a mile to Saskatoon and the road will be completed to Battleford before the present season closes, so that next year the line will be into Edmonton early. The splendid progress attained in the construction this season will leave a very easy stretch to complete next season from the end of construction to Edmonton.

The operating department is taking the line over mile by mile as soon as it is completed so that trains run almost to the end of the steel immediately it is laid. The Canadian Northern is laying the steel itself, on account of recent difficulties between the management and the contractors who had the work in hand. The argument on the junction taken out by the C. N. R. to compel the steel and bridge contractors to give up the work is to be heard soon at Regina.

**ALBERTA COLLEGE RECITAL**

The recital given in Alberta College last evening by the music and elocution departments was one of the choicest of its kind ever presented to an Edmonton audience. It was most successful in every particular. This was the initial recital of Edmonton's Alberta College and it was of a very high standard. The attendance, which was by invitation was very large. The Misses Webster, Miss Bellamy, Miss Crawford and Mr. P. S. Hook as the teachers in the music and elocution departments of the college gave the programme and proved themselves artists of real merit.

## LOCAL

The regular meeting of the Edmonton city council will be held in the usual place this evening.

Ponoka Baptists are erecting a large church, the foundation work of which has already been completed.

The Epworth League society of the Kinistino avenue Methodist church will hold a social evening on Monday.

Edmonton Orangemen will parade to the Baptist church on Sunday afternoon, October 6, when a special sermon will be preached by Rev. A. M. McDonald.

The North-West Gas and Oil Company have completed the erection of the derrick at the place selected for boring. The engine and boiler have been installed and actual boring operations will commence by the first of next month.

The ladies of the Presbyterian church will hold their annual sale of work, comprising many fancy and useful articles, in the basement of the church this afternoon and evening. Tea will be served from six to eight o'clock.

A. G. Macfarlane, C. N. R. engineer, who spent Sunday in the city, returned yesterday morning to the west of his survey operations beyond Fort Saskatchewan. He has been engaged in running the final line for the C. N. R. to Edmonton. He has a party of fourteen men with him.

## PERSONAL

Rev. Father Leduc left yesterday morning on a visit to Red Deer. He will return this evening.

S. Bennett and J. D. Mitchell arrived in the city Saturday evening from Lesser Slave Lake.

Mr. and Mrs. Sheridan Lawrence arrived in the city Saturday evening from Fort Vermilion on the Peace River.

Miss Dora Oliver returned to the city last evening from Medicine Hat, where she has been visiting.

J. G. Shearer, secretary of the Lord's Day Alliance, Toronto, arrived in the city last evening to address a meeting in McDougall Methodist church.

## LORD'S DAY ALLIANCE

A meeting in the interests of the Lord's Day Alliance was held in the College avenue Methodist church yesterday evening. It was addressed by Rev. J. G. Shearer, traveling secretary of the Lord's Day Alliance, Toronto. There was a good attendance. Mr. Shearer gave a very interesting address on Lord's Day Alliance work. At the conclusion of the address the officers for the Edmonton branch of the Alliance were elected. Geo. A. Reid is president, Geo. McLeod, secretary treasurer, the pastors of the different Edmonton churches, vice-presidents. The executive committee consists of two persons elected from each church. A large number of annual subscriptions for the Alliance were taken.

## POLITICAL NOTES

Another rousing Liberal rally was held in Oliver's committee rooms over Great West Saddlery last night. The hall was crowded. A number of splendid speeches were made and good music provided. A particular feature of the Liberal rallies is the remarkable enthusiasm exhibited on every hand. Men of pronounced conservative leanings are doing their utmost to secure the election of the Liberal candidate in this constituency, by a big majority, realizing full well the demoralization that would ensue at Edmonton and through the Saskatchewan valley particularly should the Conservative party be returned to power on the 3rd of November next. The repudiation of the Grand Trunk Pacific bargain by the Conservatives, which they openly state they will do if given the reins of government, would mean a distinct set back to Edmonton and district. A vote for the Liberal candidate is a vote for immediate railway construction.

Another Liberal rally will be held in the committee rooms this evening. Every Liberal and supporter of Mr. Oliver is invited to be present.
